MULTINATIONAL SEMINAR
CLOUD OFFICER & OUTSOURCING OFFICER - CERTIFIED PROGRAMME
IN LUXEMBOURG, FROM 6 TO 10 FEBRUARY 2023

Dear Madam, Dear Sir,

"Cloud" and "Outsourcing" can easily become nightmare words in an organisation if there is not a professional *who manages, supervises, and governs the cloud computing environment and its operations. The cloud officer allows an organization to harness the power, productivity, and efficiency from a suite of cloud computing solutions and services. As such, the cloud officer is the ultimate custodian of cloud-related resources and components.*

The Cloud Officer's primary responsibility is to ensure that an organization gets the most out of cloud computing without jeopardizing the business. The cloud officer leads the cloud adoption/migration from the very beginning phase of cloud needs assessments, vendor evaluation and short listing, down to deployment, maintenance, and troubleshooting. The CCO's job has two main components: to align cloud solutions with business objectives and goals, and to oversee cloud operations from a technical standpoint. However, because cloud computing is largely a third-party managed solution, the CCO's key job roles also include the evaluation, design and implementation of stringent cloud security and governance measures. Aware of the challenges this can represent and faithful to its goals of transferring knowledge to the banking sector in established and new roles, ATTF with the financial support of the Luxembourg Government, is pleased to announce that it will offer **7 scholarships** to **professionals from its partner countries** to join the new multinational certifying programme **CLOUD OFFICER & OUTSOURCING OFFICER** created in collaboration with the Luxembourg Banker's Association (ABBL)**.**

The cost of the course will be covered by the Luxembourg Government without any contribution from the participants. However, all costs related to the trip and stay in Luxembourg (hotel included) are to be organised and paid by the participants. Please refer to the Financial Conditions document attached to this email for more details.

Selected professionals will join Luxembourg-based professionals working in the field to follow this 5-day intensive programme.

Who can apply?
Professionals who:

- ✓ are citizens and/or residents of one of the ATTF partner countries
- ✓ fit the target group specified on the course description
- ✓ are motivated to deepen their knowledge in the matter and committed to take the online exam within 5 days from the end of the course.

How to apply?
If you are interested to apply for this programme, we invite you to fill in the attached application form and send it back to the ATTF official partner in your country **before January 2th, 2023.**

Selection Process

Only complete applications will be retained. Candidates with the most relevant profiles in reference to the target group and with pertinent motivations are most likely to be selected.

The seminar and the exam will be conducted in English without any translation. Therefore, a very good knowledge of English is essential to ensure all participants maximise their benefit from the course and enhance the chances to succeed in the exam.

Candidates who successfully complete the examination will receive the certificate of completion co-signed by the Luxembourg Banker's Association ABBL: "**Certified Cloud Officer & Outsourcing Officer"**. This will certainly be a fantastic asset for their career!
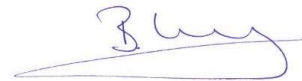

Looking forward to receiving your application to this innovative training programme.
Should you need any further information regarding this seminar, please do not hesitate to contact us.

Thank you in advance for your interest.
Yours Sincerely,

Luciele Milani   Ben Lyon
Training Advisor ATTF   Director, Banking and Finance
