

# Shaping the Sustainable Transition of your Bank

> Luxembourg, October 5 to 8, 2025  
**EXECUTIVE PROGRAMME**

We are very pleased to launch the first edition of the **new Executive Programme, fully dedicated to Sustainable Finance**. This programme was crafted for **C-level executives, their direct reports and Executive Board members from commercial banks**. A special priority will be given to **senior executives, in charge of leading and implementing the sustainable transition** within their financial institutions. Our programme will begin on Sunday evening October 5th, with a kick-off session, and it will close on October 8th with a special reception at an important bank of our financial center.

In line with the best practices learned through the ATTF Executive Programme put in place in 2015, and the ATTF Digitalization Executive Programme launched in 2023, the same successful approach will be taken for all the topics related to Sustainability. Addressing all the critical challenges faced by this strategic transition, this executive training, **co-organized in partnership with the Luxembourg Stock Exchange and the Luxembourg Green Exchange**, aims to deliver a well-balanced programme featuring **practice-oriented lectures**, given by practitioners talking to practitioners, and **putting permanently in evidence the pioneering dimension of Luxembourg's international hub in Sustainable Finance**, with all its comprehensive set of expertise and know-how. All players of this dense and effective cluster will be with us at this occasion, and no important related topic will be left off the table.

The programme will be further enriched by **engaging meetings** with senior experts and leaders of our financial center. **Open and fertile discussions** will address all the challenges faced by the leaders in today's transition towards a more sustainable and better world. A **Master Class** where participants will go into working groups will also be a smart way to exchange experiences and best practices. A **fireside chat will be held with a CEO** of the Luxembourg Financial Center to close this highly practical and comprehensive 3-day programme.

# PROGRAMME

5 October	<ul style="list-style-type: none"> <li>Evening: Kick off session &amp; Welcome dinner</li> </ul>

## COORDINATORS/MODERATORS

**Mr Roger Hartmann** is an experienced Senior Banker with over 42 years of exposure to various financial centres in Europe, Middle East, Africa, Asia and Americas. As Group CEO, Roger collected numerous experiences with growth strategies, development of new markets (including new frontier markets), hub strategies, mergers & acquisitions, transformation of the business model, outsourcing (including BPO and offshoring), cost management (fit for future programs), as well as acute crisis management and spin-offs/liquidations. Roger is also Visiting Professor at the University of Luxembourg and Independent Director in several banks in Europe, and in other firms related to the financial industry. He is Advisory Board member in several entities in Europe and in Asia and Chairman of EFPA Luxembourg Asbl. Roger is teaching since 1981. He was professionally and geographically exposed to all continents.

**Mr Paul Chahine** is the current sustainable Finance Manager at the Luxembourg Stock Exchange and the lead of the Exchange sustainable finance education arm : LGX Academy. Paul is an experienced sustainable development and climate finance professional with almost 20 years of experience. In his current role at LGX Academy Paul serves as the lead lecturer and contributes to several teaching programs in Luxembourg and abroad. He also oversees sustainable finance partnerships and capacity building programs with emerging economies, international organisations and governments. Under this capacity, Paul travelled to several countries in Asia and Africa where he worked closely with public and private institutions in the process of issuing sustainable bonds. Before joining the Luxembourg Stock Exchange (LuxSE) in November 2019 he refined his specialisation in climate finance as a consultant for the European Investment Bank's climate team, where he played a pivotal role in climate finance tracking methodologies. Paul has a master's degree in Banking and Finance from the University of Bordeaux- France, and a master's degree in Higher European Studies from the European College of Parma Foundation-Italy. He represents LuxSE in several international and national forums such as the UN COPs , and contributes to several working groups including those formed by ICMA , UN SSE initiative and LSFI
